Dear Parents,

We are happy to meet you through the 6<sup>th</sup> letter of the current academic year of our school.

## 1. EDITORIAL

### "The sky is not the limit. It's just the beginning."

Just a few days ago our nation witnessed the historic event of the flawless insertion of **Chandrayaan** Space Craft into the lunar orbit followed by its successful landing. This accomplishment signifies the culmination of tireless efforts by our country's brilliant scientists, engineers and visionaries.

The **Chandrayaan Mission's triumph** is not just about reaching the moon, it represents the spirit of relentless pursuit and the embodiment of the ideals that you, and your mind are encouraged to embrace. This mission was fuelled by passion, dedication and an unwavering commitment to push the boundaries of human knowledge. It teaches us that the sky is not the limit, but a canvas upon which dreams can be transferred into reality.

As students, you must recognise the profound impact of this achievement on our nation's scientific landscape. It marks the significant milestone in India's journey through the cosmos.

Let us not forget the values embedded in this journey - **collaboration, perseverance and the pursuit of excellence**. These values are not just confined to realm of space exploration, they resonate in every aspect of life. Just as scientists from various disciplines came together for the Chandrayaan Mission's success, we must work in harmony, embracing diversity of thoughts and skills to overcome challenges and achieve greatness.

As you witness the accomplishment of Chandrayaan Mission, remember that the same spirit that fuelled this achievement, resides within you. Dream big and never lose sight of your aspirations. Just like our scientists reached moon, you can reach for the stars.

**Embrace the wonder of discovery, cultivate your passions and contribute to the advancement of knowledge and human welfare.**
