22ND WEEKLY REPORT OF AISB
FROM 20TH SEP, 2021 TO 24TH SEP, 2021

Dear Parents,

We know that the world is on the path of **E-Learning and Digital era**.

The situation demands that adaptability is the only way of survival.

When the world is going through the worst crisis and the schools are closed for the students, our school started the new academic session without disturbing the schedule of the Annual Planner through **Virtual Classes** for all standards (**Pre-primary to XII**) which was highly appreciated and supported by the parents and students.

Our students are learning a lot through academic and co-curricular activities conducted online with full enthusiasm.

We are pleased to share with you the **Weekly Report** of online classes from **20th Sep, 2021 to 24th Sep, 2021** of **AMICUS INTERNATIONAL SCHOOL, BHARUCH**.

EVENTS & CELEBRATIONS

ENGLISH POEM COMPETITION

We at AMICUS INTERNATIONAL PRE-SCHOOL believes in overall development of a child, so we have conducted an English Poem Competition on 22/09/2021 for our Little Toddlers.

Poems are important for children. It awakens one's sensitivity and enhances creative capacity. Poetry and Rhymes enhance the phonetic awareness of a child. Children reciting rhythmic poems understand pitch, tone & the volume of sound.

The Poem recitation helps to develop memorization skills. Poetry provides a relaxed and pleasing way to practice language skills. It also helps in the physical development of a child. It helps in breathing coordination, tongue & mouth movements with the help of the musical structure of the rhyme.

When parents or teachers help them to learn or recite the poem it establishes healthy relationships with them. Reciting poems encourages children's sense of humour. Sharing poems and rhymes with their family creates space for fun and laughter. It creates the opportunities for children to read more stories and poems with parents and grandparents which boost the emotional attachment with each other.

CODING

Coding encourages Creativity. It helps in building resilience in kids at a young age. Coding is the New Literacy, which we have introduced in our curriculum. It

helps in the development of computational skills, problem solving & critical thinking. Our Toddlers of AISB, had a fun activity of Coding on 24/09/2021. We introduced ALGORITHM - is a sequence of codes. It helps them to understand what comes after, before & also helps them to identify the continuity of stories, rhymes & day to day activities. Kids always await for this session & also to meet our 'AMI-The Robot'.
