Technology with Blended Learning at AISB

**‘Technology’ has changed the way we acquire knowledge** – making education more accessible to all. Education has undergone a revolution of its own and 2020 is a stark example of this.

In this regard, the **National Education Policy 2020** recognizes the importance of leveraging the **advantages of Technology with Blended Learning in schools.**

‘Blended Learning’ is an instructional methodology that brings together the best of both worlds - online study and face-to-face learning - helping students stay motivated and engaged.

The prevailing situation compels us to look for the other available alternatives, not as the substitute for face-to-face learning but as a supplementary and complementary measure. Emergence of newer digital technologies demands for leveraging it for effective teaching-learning processes at all levels of education.

**We are glad to share that considering the importance and benefits of blended learning and online/digital education AISB has installed 12 Android 65” SMART TV in the classrooms.**

Please find the **Weekly Report** of online classes from **7<sup>th</sup> Mar, 2022 to 12<sup>th</sup> Mar, 2022** of **AMICUS INTERNATIONAL SCHOOL, BHARUCH.**
