Dear Parents,

We are happy to meet you through the 6<sup>th</sup> letter of the current academic year of our school.**1. EDITORIAL****States weakest monsoon in 5 yrs.**

The first 26 days of August this year have recorded a total of 54 mm average rainfall in Gujarat accounting for only 15% of the seasonal rain. As the climate changes, it is changing people's lives. Global warming is now impacting ecosystems worldwide. As extreme weather affects agriculture and water availability-water scarcity already impacts over a quarter of the world's people-distress migration will only grow.

Well, the privileged must create solutions and invest in such projects that bolsters local livelihoods and community resilience crucial in the era of climate change.
