<b>Story</b>	Cutie pies enjoyed <b>The Fox and The Foolish Crow.</b> <b>कौवा ओर मोर ।</b>

# CODING

*Teaching children computational thinking means teaching them 'What to do with data instead of just collecting data ! This means teaching young brains 'How to learn and not what to learn!'*

*We at Amicus International Pre School introduced coding through fun hands -on games and activities that make kids think like a computer.*

*Toddlers of LKG & UKG learned color coding through floor activities and worksheets. Color coding help kids organize their thinking,make their thinking visible to others, make connections and strengthen visual representation to aid students in internalizing their learning.*

## Grade -1

SUBJECTS	STUDENTS LEARNED
