STORY	Little kids enjoyed Two Beggars , टोपीवाला और बंदर.

EVENTS & CELEBRATION

CODING - If..... & then

Quite often, our kids are only exposed to the end - user part of technology. Most watch Youtube, play video games, play on their smart phones & download music, but what if we could teach our children to create new technology that will catapult them into the digital World. Learning Coding is just like teaching a child a new language.

We @ AIS, frequently conducts Coding sessions, where we teach them different terminologies as per their age and level of understanding. This week our topic was " If & then....."., for example.

- If it is raining, then I will take an umbrella.
- If you get good grades, then you will get into a good college.

It means **Hypothesis followed by a Conclusion.**

Here, we teach kids to follow different instructions given by the class teachers. Toddlers understood this concept by doing integrated learning through fun game & floor activity.

HINDI STORY TELLING COMPETITION

Storytelling is a traditional & timeless art form which is an effective tool to inform, entertain & educate. It is one of the best ways to engage the audience and ensure a message is conveyed and understood. It is useful for developing Integrated language skills. It develops Moral values among the students & also improves little toddlers Vocabulary.

Hindi Story telling Competition was held @ AIS, where each kiddos represented a different story. All the children earnestly participated & their initiative & efforts were appreciated by everyone.
