Fun with Science

The benefits of learning science in early childhood are numerous. It promotes critical thinking: Science involves asking questions and finding the answers yourself, which encourages child's natural curiosity and their ability to think critically about the world around them. We organized a Fun with Science activity on 4th December, 2024, Wednesday.

Our little kiddos did an activity based on Hot air Balloons using Paper cup and Balloon. They enjoyed it a lot and understood the reason behind it.

SPORTS COMPETITION

Sports are essential for students' overall growth and development. Playing various sports helps them teach life skills such as teamwork, leadership, accountability, patience, and self-confidence and prepares them to face life challenges. AISB Pre Primary section celebrated the Sports Week with enthusiasm. Students played various games and had a lot of fun with peers.
